Each person is responsible for complying with these Terms.

It is important you and any joint account holder read this section so you are aware of what to expect.

- 4.3** If at any time a payment is to be made from the account and there are insufficient funds allocated in the account but there is a balance allocated to the thinkmoney Card, we will notify you to advise that we will arrange to allocate those funds to the account from the thinkmoney Card to make the payment. If at the time of a transaction there are insufficient funds available in your thinkmoney Card to cover the amount of the transaction and any related fees, the transaction may be declined, by us refusing a payment due to lack of funds.

- 4.5** Depending on clause 4.6 and 4.7, in the unlikely event that, for any reason whatsoever, we allow a payment despite lack of funds and a negative balance arises because a transaction is completed when there are not enough funds in your account for that transaction, you shall reimburse the negative balance amount immediately from the next income or credit to be paid into the account.
- 4.6** Where a negative balance arises because of an error on the part of the person who the funds were intended for, or us, we will seek to recover the negative balance amount from the person who made the error.

We may charge the amount of the negative balance against any funds which you may subsequently have in any of your accounts. Until we are reimbursed this negative balance amount, we may arrange for your thinkmoney Card and account(s) to be suspended. We may also report the negative balance to credit reference agencies.

Where you are receiving money from outside of the UK in the form of a cheque and you wish to pay this into your account, if the cheque is not in sterling, and/or is from a bank or building society outside of the UK, provided we do not receive notice of non-payment, the following will apply:

- a)** Where the cheque is for £200 or less (or currency equivalent) the funds are deposited on a negotiation basis and will normally take between 5 and 7 business days to process.
- b)** Where the cheque is for more than £200 (or currency equivalent) the funds are deposited on a collection basis and will normally take between 60 and 90 business days to process.

The timescales for it being credited to your account are governed by the payer's bank.

4.20.4 If a cheque in a foreign currency is to be paid into your account and it is returned as unpaid from the paying bank, you will be responsible to pay to us any fees charged by the paying bank in relation to the returned cheque.

4.21 You may, with your explicit consent, authorise a third party to access your account (through an App or other online service) for them to be able to view your account information using a third party application. Before you give a third party provider access to your account, you should check the information they give you to make sure they are appropriately authorised by the Financial Conduct Authority. You must also let us know of any incorrect or unauthorised transactions you become aware of from using such services so we can investigate and arrange any refund you may be entitled to.

4.22 All payments made to or from your account are subject to our compliance procedures and usual security and risk checks, which may result in us holding, delaying or refusing to accept a transaction. In such case we will, where possible, notify you of the reasons for such refusal or delay.

5. INCORRECT PAYMENTS, DISPUTED TRANSACTIONS, SCAMS AND LOSS

- 5.1** You should check the transactions on your account regularly, including your statements, Online Banking and Mobile App. If there are any transactions you do not recognise or which look to have been incorrectly processed, or you believe you've been a victim of a scam, you must call us as soon as possible on **0161 779 5000**, or if you are outside of the UK call **44 161 779 5000** and we'll investigate this for you. If you're calling from outside of the UK please include the relevant international dialling code.
- 5.2** Subject to clause 5.3, 5.5 and 5.6, you are not liable for any payments or transactions from your account and/or thinkmoney Card that you do not authorise. If you dispute that a transaction was initiated by you, we will refund the value of the transaction and any fees or charges imposed by us as a result of the unauthorised transaction to your account immediately unless further investigation is required. If the unauthorised transaction occurred on your thinkmoney Card we will refund the amount of any transactions which were unauthorised by you and which arose after you notified us of the loss, theft, misappropriation or unauthorised use of your thinkmoney Card.
- 5.3** Following any investigation, if it is found that you authorised the transaction or that you acted fraudulently or with gross negligence (for example by failing to keep your thinkmoney Card, PIN, mobile device or security details secure) we will not refund the transaction amount. Where you have fallen victim to a scam, thinkmoney will attempt to get your funds back for you from the other bank. We may also charge you for any reasonable costs that we incur in taking action to stop you using your thinkmoney Card and reserve the right to recover the value of any transaction that may have been refunded to you.
- 5.4** The circumstances where you would not be responsible for any loss and may be entitled to claim a refund in relation to transactions on your account and/or your thinkmoney Card are where:
- a)** you have not received your thinkmoney Card;
 - b)** the transaction was not authorised under these account terms and conditions;
 - c)** we are responsible for a transaction which was incorrectly executed after you had notified us in accordance with clause 5.2 and/or 5.4(e);
 - d)** a pre authorised transaction did not specify the exact amount at the time of its authorisation and the amount charged by a supplier is more than you could reasonably have expected taking into account normal spending patterns on your account or the circumstances of the transaction;
 - e)** we were notified of the unauthorised/incorrectly executed transaction within 13 months of the debit date; or
 - f)** the transaction is a Direct Debit which is covered under the UK Direct Debit Guarantee Scheme.
- 5.5** A claim for a refund in the circumstances set out in 5.4 d) will not be accepted if the amount of the transaction was made available to you at least 4 weeks before the transaction date or it is made more than 8 weeks after being debited to your account.

- 5.6** The circumstances where you are responsible for any transactions and payment requests on your account and your thinkmoney Card, and for any fees or charges incurred as a result of those transactions, are where the transactions have occurred when:
- a)** you have given your thinkmoney Card, PIN and/or security details to someone with your agreement and they have misused your thinkmoney Card;
 - b)** you have given another person, except for an authorised Third Party Provider (see Section 8), access to your Online Banking and/or Mobile App and payment requests are made by that person via your Online Banking and/or Mobile App;
- 5.7** You authorise us to provide information to any appropriate third party, including but not limited to the Police or other authorities, including in the UK or abroad. This may include information about your account, mobile devices or other relevant information, in connection with the loss or possible misuse of your account or loss, theft or possible misuse of your thinkmoney Card, PIN or mobile device.
- 5.8** We shall not be liable for any loss you may suffer unless we have been negligent or not acted in accordance with these Terms or unless otherwise required by law.
- 5.9** Your maximum liability for any unauthorised transactions on your thinkmoney Card is £35 (or currency equivalent) unless the investigations show that any disputed transaction was authorised by you, or that you have acted fraudulently or with gross negligence (for example by failing to keep your thinkmoney Card or PIN secure or by failing to notify us without undue delay on becoming aware of the loss, theft or unauthorised use of your thinkmoney Card), in which case you will be fully liable for any loss we suffer due to such use.
- 5.10** If you have any disputes about purchases made using your thinkmoney Card, you should first try to settle these with the person or merchant from where you bought the goods or services. If you are unsuccessful in resolving the matter with the merchant we may be able to assist you in recovering the funds through a chargeback. We are not responsible for the quality, safety, legality or any other aspect of any goods or services purchased with your thinkmoney Card.

6. SECURITY – THIS SECTION IS PARTICULARLY IMPORTANT

This section explains what you need to do to help keep your account, money and security information (password, passcode etc) secure. It tells you what to do in the event you believe your security information has been compromised or your thinkmoney Card is lost or stolen, or you suspect someone knows your Personal Identification Number (“PIN”).

- 6.1** It is your responsibility to ensure that you keep your security information, your thinkmoney Card, PIN, mobile device and any other device or means to access your account, safe and secure to help prevent fraud and to protect your account. To ensure this you must:
- a)** not let anyone else use your thinkmoney Card and ensure you have signed the back of the Card as soon as you receive it;
 - b)** not disclose your PIN to anyone and destroy the notification of your PIN as soon as you receive it. If you write your PIN down this must be kept secure at all times and separately from your thinkmoney Card;
 - c)** change your PIN if you have reason to believe someone knows your PIN. This can be done at most cash machines;
 - d)** check the balance of your account regularly and check your statements. If you notice any transactions that you don't recognise or you know were unauthorised you must contact us as soon as possible;
 - e)** contact us as soon as possible on the details below if you suspect your thinkmoney Card is lost or stolen or someone knows your PIN or security information. You can also notify us of this through Online Banking and the Mobile App if you've registered for these services;
 - f)** contact us as soon as possible if you suspect your Online Banking and/or Mobile App has been compromised. You can also text **BLOCK** to **81122** or **07786 200077**;
 - g)** ensure that you take all reasonable precautions to prevent anyone else from accessing your confidential information. This includes using all security features on your mobile phone and mobile device (including any SIM card personal identification number) and keeping your mobile phone and mobile device safe at all times and not leaving it unattended in a place accessible to anyone else who you would not wish to see your account information. If you suspect your mobile phone or mobile device is lost or stolen you must phone us as soon as reasonably possible. We can remotely wipe the data on your Mobile App if you, or we, have reason to believe the device has been compromised;
 - h)** take reasonable steps to ensure your security information is unique to the accounts you hold with us;
 - i)** ensure you have adequate anti-virus protection on your computer if you register for Online Banking and take all reasonable precautions to prevent anyone else from accessing your account, including using security features available on your computer and keeping it safe at all times.

6.2 If we suspect your account has been compromised we will only contact you by telephone, email or text message. Email may only be utilised where we do not have a mobile number for you, or email is selected as the preferred option where prompted within a security process. We'll contact you using the details you most recently gave us so it's essential that you keep us informed if there are any changes.

If we contact you by **telephone**, when we call you we will need to identify you. We'll do this by asking for certain information (such as answers to questions) known only to you, and by requesting some of the digits of certain passcodes, or passwords. Where in doubt, make a note of the number you're being called from. End the call and check against the thinkmoney website, statements and correspondence or the back of your thinkmoney Card. Dial the number from your phone (don't return the call automatically). Where possible, call from a different line if you are unsure.

If we contact you by **text message** we will only ever ask you to confirm **YES** or **NO**; or provide a One Time Passcode for you to complete a payment. If you receive a One Time Passcode but have not accessed your account or requested any payments then please contact our servicing team on **0161 779 5000**.

If we contact you by **email** we will only ever provide a One Time Passcode for you to complete an action or payments as initiated by you. If you receive a One Time Passcode but have not accessed your account or requested any payments then please contact our servicing team on **0161 779 5000**. To check if any email we send you is real, look out for the following signs:

- At the top of the email we will always quote your account number with the last four digits starred out e.g. 1234****
- We'll always address you by your first name

If in doubt, don't open the email, don't click on links and don't use any contact details in the email. This is because links can install malware or direct you to a spoof website to collect your details, whilst the contact details can be fake and put you in touch with the fraudster. Always visit websites independently or use the contact details on your statement or card. You can also send emails that you suspect may be fake to: phishing@thinkmoney.co.uk.

Remember that we'll never ask you the following in an email, on the phone, by text or in writing:

- Authentication code (even by tapping it into your phone keypad), which relates to a payment, your digital account or changes to your contact information
- Card PIN
- Your card security details (CVV i.e. the last 3 digits from the back of your card)
- One Time Passcodes
- For you to transfer money directly to us or to a safe account

6.3 For security purposes, you must notify us if you will be using your thinkmoney Card abroad (providing us with your intended destination and departure and return dates). If you fail to do this it could result in your thinkmoney Card being suspended.

6.4 Any message we may send to you by text message, email or push notification is not secure. Once the message has been sent we cannot be held responsible if for any reason it fails to arrive, or it arrives incomplete or in any way different from the message we sent, or if the message has been seen by an unauthorised person.

7. HOW WE MAY USE YOUR PERSONAL INFORMATION

This section summarises how we may collect, use and share your personal information. We will only do so where we have your agreement or where we have a legal, regulatory or contractual reason to do so, or where we're under a public obligation or where we believe that the processing is reasonable and doesn't affect your rights.

Our [Privacy Policy](#), which is available on our website at: www.thinkmoney.co.uk or by contacting us on 0161 779 5000, sets out in detail how your personal information is used and your rights for how your personal information may be processed. When you open an account you will also be provided with a copy of our “**How we use your personal information**” leaflet. This provides a summary of the information contained in the Privacy Policy for you to read and keep for your records.

7.1 The information we collect from you will depend on the product or service you apply for, or the service that we provide to you. This will likely include the collection of:

- a)** your personal details (e.g. name, date of birth)
- b)** address details
- c)** contact details (e.g. phone number, email)
- d)** special categories of data*
(e.g. biometric data, health information)
- e)** financial information
- f)** employment information
- g)** information on how you use our website(s) and products and services.

Special Categories of Data

*Data protection law defines some personal information as “special categories of data”. This includes information about physical or mental health, sexual life, religious beliefs, race or ethnic origin, political opinions, trade union membership or biometric data. We will only collect and store this information where we have agreed it with you first, or we have a legal obligation to do so, and it is necessary to provide our services. Any personal information about you relating to criminal convictions or offences may only be used by us when authorised by law.

- 7.2** We may use your personal information in the following ways:
- a)** to consider and process any applications for any products or services we offer;
 - b)** to administer and operate the products and services we provide;
 - c)** to assess financial and insurance risk;
 - d)** to prevent and detect crime including anti-money laundering, terrorist financing, financial sanctions and fraud prevention;
 - e)** to share with companies who provide us with services, for example, printing providers, IT service providers, payment service companies and banks and finance companies;
 - f)** to comply with our legal obligations; and
 - g)** to help us identify products and services which may be of interest to you and to allow us to communicate with you about such products and services by email, phone or text (unless you have asked us not to).

7.3 If false or inaccurate information is provided and fraud is identified or suspected, details may be passed to fraud prevention agencies. Law enforcement agencies may access and use this information.

7.4 If you apply for an account and/or a credit product your information will be shared with credit reference agencies. If the application is joint, information about both applicants, and the outcome of any searches will be shared. In some cases a quotation search, commonly known as a 'soft' search may be carried out. This will be recorded on your credit record but only you and the company making the search will be able to see this.

If a 'hard' search is made, the credit reference agency will add details of this search to your record which can be seen by other organisations that make searches and they may use it to help make credit decisions about you, to prevent fraud, money laundering and terrorist financing and to trace debtors.

- 7.5** Whilst you have an active account with us, this will be reported to credit reference agencies each month to show that you have an active account.
- 7.6** For further information about credit reference agencies and how they will use your personal information you can read the **Credit Reference Agency Information Notice**. This is available within our Privacy Policy which you can find on our website: www.thinkmoney.co.uk, and is available from the three main credit reference agencies: TransUnion; Equifax and Experian.
- 7.7** You can request a copy of the personal data that we process about you at any time by writing to us or phoning us using our contact details below.

Third Party Provider (TPP)

A TPP is a third party payment service provider that's authorised by the Financial Conduct Authority (FCA) or another European Economic Area (EEA) regulator and have your permission to access your account information and make payments on online payment accounts operated by other providers (such as banks, building societies and credit card issuers).

This section explains how TPPs may access your account and when we may block such access.

- 8.1** If you give a TPP permission to access your account, these Terms will still apply. You will be able to make the same payments through the TPP that you can through your Online Banking and we will treat any instruction from a TPP as if it was made from you.
- 8.2** Account information that could be shared with a TPP may include special categories of data, such as payments made from your account to trade union or religious group memberships.
- 8.3** Although you should not generally give your security details to anyone else, you may need to provide them to a TPP to allow them to provide you with their services. Before you give them your security details it's important you check that the TPP is authorised by the FCA or other EEA regulator. If you don't check and they are not authorised you will be responsible for any payments they make.
- 8.4** If we become aware that an unauthorised TPP is using your security details, or we believe it's acting fraudulently, we may refuse their access to your account. We may also have to block access to your accounts. We will tell you when this happens unless it would be unlawful for us to do so.

- 12.5** In certain cases we may terminate these Terms and close your account and cancel your thinkmoney Card immediately and without notice where:
